HOW MUCH MONEY CAN I MAKE TRADING FOREX ?

This is one of the most common questions that I am asked so I give below a short example and also how traders make use of what Einstein described as the “Eighth wonder of the world” to further improve those returns.

As usual I attach copies of my own real money trading statements. **\$22,000 profit** made in the last 10 trading days (after taking account of all losers). That is an average of around \$2,200 (£1,400) each and every trading day.

If you follow my regular mailings you will know that such results are documented and repeated mailing after mailing and were achieved using a surprisingly low level of capital. Why do I post my own trading statements out? - well I can do no better than quote from Mark Twain.

“If you want to make money first find a man who is already doing so – and then ask him how he does it !”

Best regards

Nigel

“How much money can I make from trading & how quickly can I make it” !

The simple answer to the above question is – if you are doing it right it is possible to make really very substantial sums of money even from relatively modest amounts of starting capital. In the case of day trading such startling results can be achieved sometimes in just a matter of a few weeks.

The key does not so much lie in having a wonderful method but also in correctly harnessing the power of compounding. Einstein described compound interest as the 8th wonder of the world.

In the course manual is a table illustrating the immense power of compounding. The example assumes that you start with a \$500 account and have 50% winners and 50% losers. If you place just 1 trade per day win or lose and use the simple compounding and money management formulas explained on the course you would turn your \$500 into \$800 by the end of the first month and into \$40,000 by the end of the first year.

Here is a small summary extract from that table

Compound returns

Trade No	\$ Last winner	\$ Balance
0		500
20	74	776
40	115	1206
60	170	1873
80	264	2908
100	411	4516
150	1234	13573
200	3709	40794

\$500 into \$40,000 in a year with just 1 trade per day sure beats the current Halifax rates!

Now just imagine what the results would look like if rather than place 1 trade per day you placed two trades per day. For instance if you placed 4 trades per day you would achieve the above results in just 3 months.

It is for this reason, amongst others, that most traders opt to day trade because we can increase our frequency of trade and get that compounding working even faster.

I am not for a minute suggesting that everybody will achieve the returns described above, **but some will**, and it does illustrate that with these not too unrealistic assumptions just how much money it is possible to make trading the forex and futures markets.

The potential in this business is truly astounding and the Pro-Trader course goes on to cover the application of much more advanced and aggressive compounding techniques that really can rocket returns into the stratosphere at genuinely unimaginably fast rates.

I am not aware of any other business where it is as possible to turn such relatively small sums of starting capital into such huge sums so quickly.

Clearly it's one thing showing that it can be done in theory and quite another doing it with real Dollars. But at least we know for sure (with mathematical proof) that the potential is genuinely there in the first place. Now that is a great start because most opportunities I have come across in my life, once investigated, come out much closer to the quote below.

"To make a million - first start with \$900,000. — Morton Shulman"

So what do you need to do to benefit from the eighth wonder of the world?

Certainly you do need a system or methodology that has some form of positive expectancy or "edge". Although it does not have to be large. The Casino has a system with such an edge with the roulette wheel where because of the "zero" it has an advantage of a little under 3%. It is an old line but true none the less that they DID build Las Vegas on such a tiny edge.

So success is not really about the size of the "edge" – Las Vegas has proved that.

Therefore do not try and achieve 90% winners it is simply not necessary. Even a 3% edge will make you a great deal of money.

To summarise pretty well all you need to make a lot of money in trading is a fully formed systematic trading methodology that provides you with even just a small "edge" then combine that with a good position sizing formula and the rest is just simple arithmetic!

Finallyyou need to GET STARTED. Sadly most people will spend their lives pacing around the edge of life's swimming pool wondering how cold or how deep the water is – the winners jump in and start swimming.

Finally on the subject of making money here are a few humorous quotes

It isn't necessary to be rich and famous to be happy, it's only necessary to be rich. — Alan Alda

Money isn't everything but it sure keeps you in touch with your children. — J. Paul Getty

Whoever said money can't buy happiness simply didn't know where to shop. — Bo Derek

Money is better than poverty, if only for financial reasons. — Woody Allen

My formula for success is rise early, work late and strike oil. — J.P. Getty

Every morning I get up and look through the Forbes list of the richest people in America. If I'm not there, I go to work. — Robert Orben

I have never been in a situation where having money made it worse. — Clinton Jones

Part of the \$10 million I spent on gambling, part on booze and part on women. The rest I spent foolishly. — George Raft

It is true money can't buy you happiness - but it is not happiness I want - it's money ! (anon)

Some people get so rich they lose all respect for humanity. That's how rich I want to be! (Rita Rudner)

REAL MONEY PERSONAL TRADING STATEMENTS BELOW

=

\$22,632 real money ACTUAL proven profits
(realised after all losers in the last two weeks)

= **AV \$2,263 profit realised each trading day**

Using the methods in this manual

COURSE INCLUDES

170 PAGE COURSE MANUAL – INCLUDING 5 TRADING METHODOLOGIES
(To take away and start trading with immediately)

3 HOURS OF CUSTOM PRODUCED VIDEO

RESOURCES CD (Including much additional relevant material)

PRIVATE PERSONAL TUITION – Live 1-2-1 or via Skype

For obvious security reasons the Broker details and some of the customer account details have had to be blanked out from these statements. In all other respects they are exact copies of the original statements which are available for inspection in London by all course attendees.
